

Healthy Together

CLEVELAND

Your Health Our Future

A SEASON OF GRATITUDE

As I reflect on this year and the achievements of Healthy Together Cleveland, I want to thank you. Together, the coalition has been laying the foundation to create change one community at a time. The top five accomplishments I am thankful for:

- Coalition kick-off where you determined the coalition's focus areas – access to healthy food choices and access to physical activity opportunities.
- Community Conversations in communities where access to healthy food and physical activity are limited.
- Established work groups to create action plans using a Results-Based Accountability framework.
- Implementation of action plans.
- Partnership with Kingstown to begin creating change one community at a time.

I continue to be grateful for your partnership and look forward to continuing our work. Happy Thanksgiving!

*Jordan Frye,
Project & Program Coordinator*

WALKING FOR A SAFER KINGSTOWN

As a follow-up to the focus groups in Kingstown, the coalition conducted a walk audit. Walk audits are designed to assess neighborhoods or towns, and to brainstorm ways to make it easier for people of all ages and abilities to safely walk around their community. The walk audit committee used the AARP & Communities Moving Together assessment tools to conduct a walk audit in Kingstown specifically focused on safety at their community park. A walk audit report that highlights the areas of concern, pictures, documentation, and suggestions for improvements will be shared with Mayor Gerald and the Kingstown community later this month.
